WHAT WE PROVIDE

- Mounting Hardware
- Crystal shade
- Glass diffuser
- LED

WHAT YOU NEED

- Screwdriver
- Wire Cutters
- Wiring Supplies as Specified by Electrical Code

STEP BY STEP INSTRUCTIONS

Before starting your installation disconnect the Power by turning off the Circuit Breaker or by removing the fuse at the fuse box. Just turning the light off at the light switch is not sufficient to prevent electrical shock.

1

MAKE WIRE CONNECTION

If there is an existing fixture remove it. Expose the supply wires from the J-box. Mount the crossbar to the J-box with the supplied screws. Gently pull the supply wires through the hole in the crossbar plate. Connect the black supply wire to the black fixture wire. Secure with the supplied wire nuts. Connect the white supply wire to the white fixture wire. Secure with the supplied wire nuts. Attach the green J-Box wire around green hexagonal head screw or connect it to the green supply grounding wire of the fixture. Secure all wires with electrical tape (not supplied). Tuck all wires carefully into the J-Box.

2

MOUNT THE FIXTURE TO THE CROSSBAR

Insert the screws to the side of crossbar. Position the hanger to the side of crossbar screws. Adjust the length of the wire using the grip lock. Place the canopy over the hanger to crossbar. Align the hole in the centre of canopy and secure with the supplied thumb screws. Adjust the length of fixture and secure with the supplied strain relief screw.

3

INSTALL THE GLASS SHADE

Hold the glass shade up to the fixture and secure with the supplied screw nut and knob.

4

RESTORE THE ELECTRICITY AND CHECK THE OPERATION OF YOUR NEW ACCESS LIGHTING FIXTURE

CAUTION

If the fixture is to be removed or replaced, please ensure that the electricity is switched off and that the fitting is cool before touching it.
