THIS PRODUCT MUST BE INSTALLED IN ACCORDANCE WITH THE APPLICABLE INSTALLATION CODE BY A PERSON FAMILIAR WITH THE CONSTRUCTION AND OPERATION OF THE PRODUCT AND THE HAZARDS INVOLVED. CE PRODUIT DOIT ETRE INSTALLE SELON LE CODE D'INSTALLATION PERTINENT, PAR UNE PERSONNE QUI CONNAIT BIEN LE PRODUIT ET SON FONCTIONNEMENT AINSI QUE LES RISQUES INHERENTS

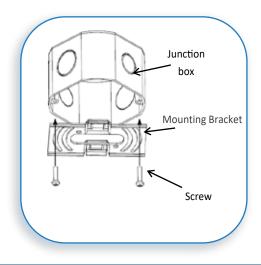

NOTE: The important safeguards and instructions that appear in this manual are not meant to cover all possible conditions and situations that may occur. It must be understood that common sense, caution and care, are factors that can't be built into any product. These factors must be supplied by the person(s) caring for and operating the fixture.

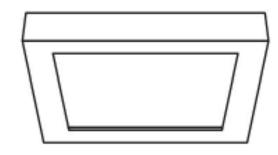

GENERAL INFORMATION

All electrical connections must be in accordance with all ordinances, Local and National Electrical Codes. These fixtures are intended for mounting to a standard 4" x 2 1/2"metal octagon outlet box. The box must be directly supported by the building structure and U.L. Recognized.

STEP BY STEP INSTRUCTIONS

Before starting your installation disconnect the Power by turning off the Circuit Breaker or by removing the fuse at the fuse box. Just turning the light off at the light switch is not sufficient to prevent electrical shock.

WHAT WE PROVIDE

- Mounting Hardware
- Mounting Bracket
- LED

WHAT YOU NEED

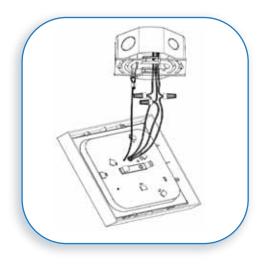

- Screwdriver
- Wire Cutters
- Wiring Supplies as Specified by Electrical Code

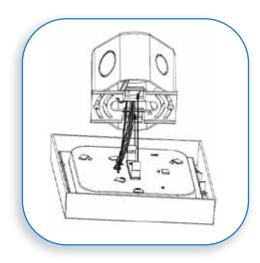

Recommended Dimmers (0-10V Dimmable) Lutron (66345) DVTV Leviton IP710-DLZ

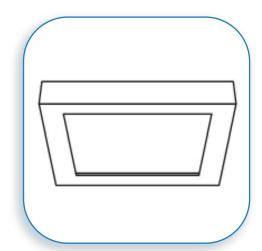

PREPARE FIXTURE AND MOUNT CROSSBAR

If there is an existing fixture remove it. Expose the supply wires from the J-box. Mount the mounting bracket to the junction box with the supplied screws. Note: Square mounting key holes must recess into junction box when securing

mounting bracket

SUPPORT THE FIXTURE AND MAKE WIRE CONNECTIONS

Hook the support wire to hold the fixture while you make the electrical connection.

Gently pull the supply wires through the hole in the crossbar. Connect the black supply wire to the black fixture wire. Secure with the supplied wire nuts. Connect the white supply wires to the white fixture wire. Secure with the supplied wire nuts. Attach the green J-Box wire around green hexagonal head screw or connect it to the green supply grounding wire of the fixture. Secure all wire with electrical tape (not supplied).

Tuck all wires carefully into the J-Box.

MOUNT FIXTURE

Align the mounting tabs on the fixture with the square key holes on the mounting bracket and gently push the clips into the key holes until they engage and the fixture sits flush to the ceiling.

WARNING: if not pushed in place, the fixture may fall and cause serious injury.

** This fixture is wet location rated. In order to ensure that moisture does not enter the outlet box and cause a short circuit, clear caulking should be used to seal the space between the fixture mounting bracket and the wall. Ensure that a space is left to allow for the escape of moisture. It is recommended that Outdoor Silicon Sealant is used for that purpose**

RESTORE THE ELECTRICITY AND CHECK THE OPERATION OF YOUR NEW ACCESS LIGHTING FIXTURE CAUTION If the fixture is to be removed or replaced, please ensure that the electricity is witched off and that the fitting is coal before touching it.
